

Activity | Introduction to Goal Setting

Personal Development

In this first activity we begin the goal setting process by describing;

- ▶ Your role
- ▶ What you are responsible for
- ▶ Your key work objective for the year

Please write these down in the first three sections of the [Personal Development Plan Template](#). The template includes examples of how to describe each of the above. You can download this template from the resources section of this lesson.

* Please share your role and what you hope to achieve this year on the study group. Sharing helps to keep you accountable.....So start posting!
